TESLA AirCook Q10

Multifunctional cover for hot air heating

- ✓ ideal accessory for the TESLA pressure cooker
- ✓ 5 automatic programs with Heat2Flow technology
- ✓ suitable for all pots with a diameter of 22 cm or 24 cm
- ✓ 60 minute timer with automatic shut-off
- ✓ modern touch control panel

The TESLA AirCook Q10 multifunctional lid for hot air heating is an ideal accessory for the TESLA EliteCook K50 and TESLA EliteCook K70 electric pressure cookers, but also for electric pressure cookers of other brands or classic pots with a container diameter of 22 cm or 24 cm.

If you already have a pressure or classic pot with a diameter of 22 or 24 cm, that's all you need to cook healthy food. Simply place the food in the pot, cover it with TESLA AirCook Q10, select the heating mode and get a delicious crispy food!

You can manually set the desired cooking time and temperature on the digital display or choose from several programs such as french fries, meat, poultry or fish.
