

# TESLA PrimeSound HQ-880

Quality sound experience

- ✓ clear and dynamic sound with a total output power of 200 W
- ✓ powerful bass subwoofer
- ✓ wireless connection using Bluetooth technology
- ✓ SD card and USB input for playing MP3 files
- ✓ digital optical input

TESLA PrimeSound HQ-880 consists of a sound bar and subwoofer, which will make every movie night at your home an unforgettable experience. It is equipped with many connectors such as a digital optical input, a pair of AUX inputs or a 3.5 mm jack connector. You can also use the MP3 music player from the USB port or SD card as a source of entertainment and music. Thanks to Bluetooth wireless technology, you can easily connect it to your phone, computer, laptop or TV. Commissioning and operation itself are very simple, you can control the speaker with the buttons on the side of the speaker or with the help of a remote control. The speaker package also includes a mounting kit for mounting the soundbar to a wall.

## Dimensions
