TESLA ThermoCook TMX3000

Multifunctional food processor

- ✓ multifunctional equipment saves time and space in the kitchen
- ✓ 12 preset programs for 4 types of food: soup, dessert, cooking and dough
- ✓ cooking, frying, sautéing, soup maker, steamer, yoghurt maker, blender, whisk and many more

The TESLA ThermoCook TMX3000 is a multifunctional food processor that, in addition to cooking, also steams, braises, roasts, mixes, kneads dough and makes yoghurt, so it can replace several kitchen appliances at once.

You like thick, creamy soups that fill you up as a full lunch or dinner, but you don't have time during the day to prepare it? This multifunctional food processor does all the work for you. At the same time, you can easily prepare all kinds of sauces, stews, porridge or breakfast. Thanks to the interchangeable chopping blade, you can grind almost any ingredients.

The cooking vessel is made of high quality stainless steel and therefore heating is easier around its entire circumference.

Dimensions

diameter: 30 x 22 x 31 cm, **dimensions with steaming pot:** 36 x 35 x 44 cm, **weight:** 3.4 kg
